

PHASES OF A COACHING CYCLE

Week 1: The Set Up

- Select a focus area and identify students current performance
- Select or develop a pre-assessment (baseline data)
- Agree on date & time for in-class support: Coach comes in to help proctor pre-assessment or collect anecdotal student evidence

Weeks 2-4: Inquiry Cycle

- Review student evidence to set/update student learning targets
- Co-plan upcoming lesson that supports learning targets
- Select what student evidence will be collected
- Agree on date & time for in-class support
- In-class support: Teacher selects the type of support desired

Week 5: Reflection

- Review post-cycle student data
- Participants debrief on the experience
- Identify next steps in the selected focus area
